

5910R Multi-Purpose Centrifuge

Is Your Benchtop Centrifuge a Bottleneck?

The Eppendorf Centrifuge 5910 R is the next benchmark in versatility, capacity, and convenience. The universal swing-bucket rotor enables high-throughput spins of up to 64 x 15 mL or 36 x 50 mL conical tubes.

WHY YOU WILL LOVE IT

- ▶ Keep samples safe with the exceptional cooling performance of the advanced refrigeration system
- ▶ Increase efficiency by spinning both tubes and plates in the universal swing-bucket rotor without the need to change buckets or adapters
- ▶ Protect yourself from hazardous samples with aerosol-tight bucket caps that feature a convenient handle for safe and easy carrying from the centrifuge to the biosafety cabinet

Ordering Information

Description	Catalog No.	Promo Price
5910R Cell Culture Bundle w/ S-4x universal rotor, adapters for 15/50ml tubes, 4x aerosol-tight caps, plus 40% off a second rotor of your choice.		
Centrifuge 5910R, 120V	MP2231010065	\$14,995.00

CellXpert C170i CO₂ Incubators

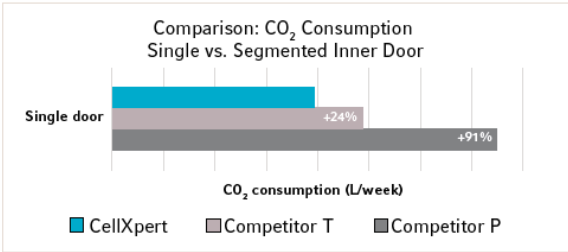

Are Your CO₂ Incubator Running Costs Too High?

The CellXpert® CO₂ incubator, with no internal expendable parts like fan-associated HEPA filters or UV lamps, significantly reduces CO₂ and N₂ consumption and provides up to 25% more usable space.

WHY YOU WILL LOVE IT

- ▶ Get up to 25% more usable space for more cell culture vessels
- ▶ Save up to \$9,000 over five years with significantly reduced CO₂ and N₂ consumption
