

About the Indiana Health Industry Forum

About Us

The Indiana Health Industry Forum is a 501(c)6 not-for-profit trade association for companies and organizations in the health sciences sector. The diverse members of the Indiana Health Industry Forum generate the collective voice of the state's health and life science industry. Our mission is to connect key stakeholders to enhance business networks, advocate for member interests, develop workforce skills, and provide strategic vision in the interest of growing the state's health industry economy and reputation

Why IHIF

For every organization, large or small, IHIF provides a number of benefits that cannot be found anywhere else.

- IHIF helps create a **network** that increases interaction both between IHIF members and with health industry organizations across the state, country, and world. This helps provide a forum for business to business networking that may introduce potential collaborative partners.
 - IHIF is the Indiana affiliate of the Biotechnology Industry Organization (BIO), a partner in the PhRMA affiliated Hoosiers Work for Health Initiative, a Supporting Partner Organization for AdvaMed, and a not-for-profit Partner for HIMSS.
- IHIF is also doing its part to support Indiana's **economic development** efforts in the health and life science industries. The Forum leads implementation of a **Statewide Strategic Plan** to put industry driven guidance into practice in several areas.
- Foremost, the Forum provides guidance and leadership on **public policy** issues that affect the competitiveness of the health and life science industries in the country and state. This includes identifying policies and legislation that impact the industries, communicating with legislators on priority issues, providing position and policy statements, and developing policies that will favorably affect the industries.

IHIF members are encouraged to participate in or to help organize standing committees (Forums) organized around each of our focus areas. In addition to providing excellent networking opportunities, involvement with these groups can directly influence industry action and response.

IHIF also delivers direct financial benefits to members' bottom line through its affiliation with BIO and the BIO Business Solutions Program discounts and services. Additional special "IHIF Member Pricing" is available on all IHIF events and negotiated pricing is frequently available on outside events.

Membership in IHIF can be an advantage to people in your organization that work in research and development, finance, business development, government affairs, marketing, HR, and many others areas and in doing so, provide benefits and services only available through this unique organization.

For more information and to learn about specific IHIF member benefits, please visit us on-line at www.ihif.org.

IHIF’s monthly newsletter, “INForum”, shares member news, upcoming events, funding opportunities, and information of general interest. Members may also receive notices of special events or promotions. You may add additional contacts at any time. Please enter up to three contacts below or e-mail info@ihif.org for help.

Name/email 1: _____

Name/email 2: _____

Name/email 3: _____

MOMENTUM

MOMENTUM is IHIF’s suite of programs and services specially created to help start-up companies better connect with critical business assistance. MOMENTUM programs are available to “Company” and “Patron” members and admission to the program can be granted after an interview with IHIF staff to determine eligibility.

Forums

Forums are member-driven discussion groups organized around a variety of topics and meet throughout the year. If you would like to participate in a Forum, please select from the list below or sign-up on the IHIF website - <https://ihif.org/forums/>

- ☐ Technology Commercialization
- ☐ Capital Formation
- ☐ Business Development/Economic Development
- ☐ Public Policy
- ☐ Workforce and Education

Thank you for your commitment to IHIF’s mission and your support of Indiana’s bio+med tech business community.

More saving. More research.

Join the largest cost-savings program in the life sciences industry.

BIO Business Solutions®, the largest cost-savings program for the life sciences industry, is FREE with your company's membership in the Indiana Health Industry Forum (IHIF). Receiving savings from our lab, clean room, and office partners is incredibly simple. We've already vetted the suppliers and negotiated discounted pricing and favorable end-user agreements.

There is no fee for IHIF members to utilize any of the programs and BIO membership is not a requirement. Visit www.ihif.org to learn more about membership and the benefits available through your participation in the BIO Business Solutions program.

**Business
Solutions™**

More saving. More research.

**BIO Business Solutions®
users saved more than
\$400 million* last year.**

*off list price

Life science companies of all sizes benefit.
Here's what our members have to say:

"We have been using the BIO Business Solutions® program for many years. We are using programs for things like office supplies and lab supplies and the savings come out to about \$200k a year. That's money we've been able to invest right back into our research so BIO Business Solutions® has definitely been a great choice for us."

— Dave Lawrence, CBO, Acorda Therapeutics

"With a heavy workload and smaller staff, we really don't have time to research business solutions or shop around. With BIO Business Solutions®, the due diligence has been done and the discounts negotiated for us. We now have the same buying power as much large companies and were able to save about \$30,000 dollars this past year..."

— Karthik Ramachandran, VP & Founder, Likarda LLC

"[BIO Business Solutions®] offers a lot of value not just for the smaller companies but for the mid-cap and even the bigger companies when you think about what it brings to the table. Now I have hands that are devoted to something else rather than working on deals that the BIO Business Solutions® group has already done for us..."

— Issac Young, Sr. Dir. of Supply Chain Ops., BioMarin Pharmaceutical

How to get started...

1. Contact us to check eligibility or become eligible.

2. Choose the cost-savings offers your company needs.
